

# GEOWAREHOUSE FOR COLLECTIONS

## Assess your collection potential

GeoWarehouse is the leading property research tool for land professionals. Collection Agencies can validate property ownership, assess neighbourhood property values, and access additional information for asset validation.

To help you manage your collection portfolio:

- Search addresses and owner name to review property ownership
- View previous property transfer prices and dates
- Perform neighbourhood sales analyses to assess values of recently sold neighbouring properties

“GeoWarehouse provides an invaluable resource for us to help our contacts understand their options for dealing with outstanding debt.”
